

Quality Water of East Texas

Iron Breaker System

Improves water quality by providing clean, odor and stain free water.

Benefits

- Reduces or removes iron stains from occurring in your house.
- Provides clean, odor free water.
- Whiter and brighter clothes & linens.
- Protects plumbing fixtures and appliances.
- Protects pipes from iron clogging.

Technical Details

- Our preferred control head is a Fleck 2510 control head.
- We connect all our control heads with 1" PVC Scheduled 40.
- Our filtration systems must stay under pressure. To do so, we install all our systems after the pressure tank.
